The Business Sustainability & Growth Plan

1. Portfolio Task: The "Business Sustainability & Growth Plan"

A. Relationship Management (The Proactive Update):

- **The Friday Update:** Write a 3-sentence professional update for a fictional client using the formula: **[Finished This Week] + [Next Steps] + [Potential Blockers]**.
  e.g. The Scenario: You are managing a social media page, and it is Friday morning.

  e.g. The Friday Update: "This week, I finished 5 custom graphic posts and scheduled them for next week. Next week, I will focus on responding to all new comments and growing our follower count. I don't see any blockers, but I will let you know immediately if my local power outage lasts longer than expected."

  "This week, I completed the creation and scheduling of social media content across our Facebook, Instagram, and LinkedIn platforms. Next week, I will focus on monitoring campaign performance, engaging with followers, and optimizing ads to improve conversions. There are currently no major blockers, but I will communicate immediately if there are any issues with campaign approvals or platform outages."

B. The Growth Strategy (Upselling & Cross-selling):

- **The Upsell:** Identify one premium upgrade for your specific niche.

  e.g. The Upsell: *A premium "Instagram Growth Package" that includes daily video stories instead of just static images.*

  The Upsell: "Premium Social Media Growth Package" including social media advertising management

- **The Cross-sell:** Identify one related service you can add to help your client's overall goal.

  e.g. The Cross-sell: Adding a 30-minute "Monthly Analytics Report" to show the client exactly how their business is growing.

  The Cross-sell: "Email Marketing Service" to Build customer relationships

- **The Buy-in Script:** Write the exact message you would send to the client to suggest these services using the "Consultant" mindset (Why before How Much).

  e.g. The Buy-in Script (Consultant Mindset): "I noticed your followers are most active during your live sales. Would you be open to adding 3 short video reels a week to your plan? This upgrade would help us reach more people who aren't yet following the page."

  I've noticed that your social media content is generating good engagement, but there is an opportunity to reach an even larger audience. I would recommend upgrading to our Premium Social Media Growth Package, which includes weekly reels and targeted advertising to increase visibility and conversions. Additionally, adding email marketing would help us nurture leads and encourage repeat business, creating a stronger overall marketing strategy for your brand."

C. Business Financials (The 3-Jar Harvest):

- **Project Fee:** ₦100,000

- **Jar 1 (Business Operationss - 20%): ₦**

  e.g. Jar 1 (Business Operations - 20%): ₦20,000 (Set aside for your data, power, and any app subscriptions like Canva or Grammarly).

  1. Electricity
  2. Internet data
  3. Advertising tools

- **Jar 2 (Savings - 20%): ₦**

  e.g. Jar 2 (Savings - 20%): ₦20,000 (Your 'Rainy Day' fund for slow months or to buy a better laptop).

  1. Emergency funds
  2. Laptop upgrades
  3. Professional certifications

- **Jar 3 (Salary/Personal - 60%): ₦**

  e.g. Jar 3 (Salary/Personal - 60%): ₦60,000 (This is your personal money to keep for yourself and your family).

  1. Personal expenses
  2. Family needs
  3. Transportation
  4. Daily living costs
